SUMMARY

Frontend Developer with a passion for building modern, responsive, and scalable web applications using React, Tailwind css and JavaScript. I thrive on writing clean, maintainable code and creating seamless user experiences. Always eager to learn new technologies, I enjoy solving complex real-world problems with innovative, efficient, and practical solutions. I believe in combining strong technical skills with creativity to deliver software that truly makes a difference.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6), Tailwind CSS, Redux (RTK & Toolkit), GSAP, Responsive Web Design

Tools: Git, GitHub, Vercel
